For: ELECTRIC MOTOR CONTROLLER : (P27135-01)

PRELIMINARY AMENDMENT

Simultaneously with the filing of the above-identified application with which this Preliminary Amendment is being filed, and prior to the calculation of the filing fee, Applicant hereby amends the application as follows, without prejudice:

In the Claims:

Please amend the claims as follows:

Please amend claim 7 to read as follows. A marked-up copy of the amended claims is attached hereto, having the bracketed additions and stricken deletions.

--7. A motor controller in accordance with claim 2, wherein said inverter control section comprises:

a phase compensation section for generating a phase compensation amount from one of:

the difference between the output of said reactive current command section and the output of said reactive current computing section,

the difference between the output of said phase difference \emptyset command section and the output of said phase difference \emptyset computing section,

the difference between the output of said phase difference α command section and the output of said phase difference α computing section,

the difference between the output of said phase difference β command section and the output of said phase difference β computing section and
